InterAct Ministries exist to make disciples among the least-reached peoples, and they focus on communities in Russia, Alaska, and Western Canada. Josh and Joylynn have a love for the First Nations people living in Lethbridge and on nearby reserves. They first began ministry with InterAct in 2012 and have developed a First Nations youth group, built relationships with First Nations families, and deepened their understanding of First Nations culture, so that they can share the gospel in the clearest way possible.
