Ministry: Training and deploying leaders to plant churches in eastern Cuba

ServeBeyond is the international outreach arm of the Evangelical Free Church of Canada (EFCC). The Evangelical Free Church of Lethbridge is part of EFCC and has partnered with ServeBeyond in Cuba since 2005. Together, we successfully planted a church in the city of Matanzas, and this church, in turn, has launched into two other cities. In addition, the Matanzas church has buildings and structure to support a church planting training centre. Moving forward, our church will continue to work with ServeBeyond to identify, train, and commission new leaders for Cuban churches. In addition, our financial support will help fund all aspects of new church plants, including the renovation of buildings, the purchase of equipment, the resourcing of outreach events, and the subsidizing of pastor's salaries. We look forward to many more churches being planted and the good news of the gospel being proclaimed across eastern Cuba.
